

HIGHLIGHTS

FAROUT 2026 SimLE SimBa cat. A flight

COMPETITION

PUBLIC

NOMINAL

ROCKET	MOTOR	LAUNCH SITE	LAUNCHED	UPLOADER	FIRMWARE
R 7 - OrzeB	Zygzak - 1	Kern County, California, United Sta...	May 31, 2026 at 2:00 PM	Jan Sacharuk	3.0.1

4th place in our category and the highest recorded flight of our science club outside of Poland. Had a great time at comp, and we'll come back stronger next year

LOG DURATION

67.4 s

MAXIMUM ALTITUDE

700.7 m

MAXIMUM VELOCITY

93.7 m/s

PEAK BOOST ACCELERATION

61.7 m/s²

APOGEE TO MAIN DESCENT

13.4 m/s

MAIN TO LANDING DESCENT

12.9 m/s

LAUNCH TO LANDING DRIFT

61 m

RECORDED EVENTS

Liftoff	0 s
Burnout	3.05 s
Apogee	13.82 s
Main deployment	36.57 s

LAUNCH WEATHER

Modeled: unavailable at export time

Launch atmosphere

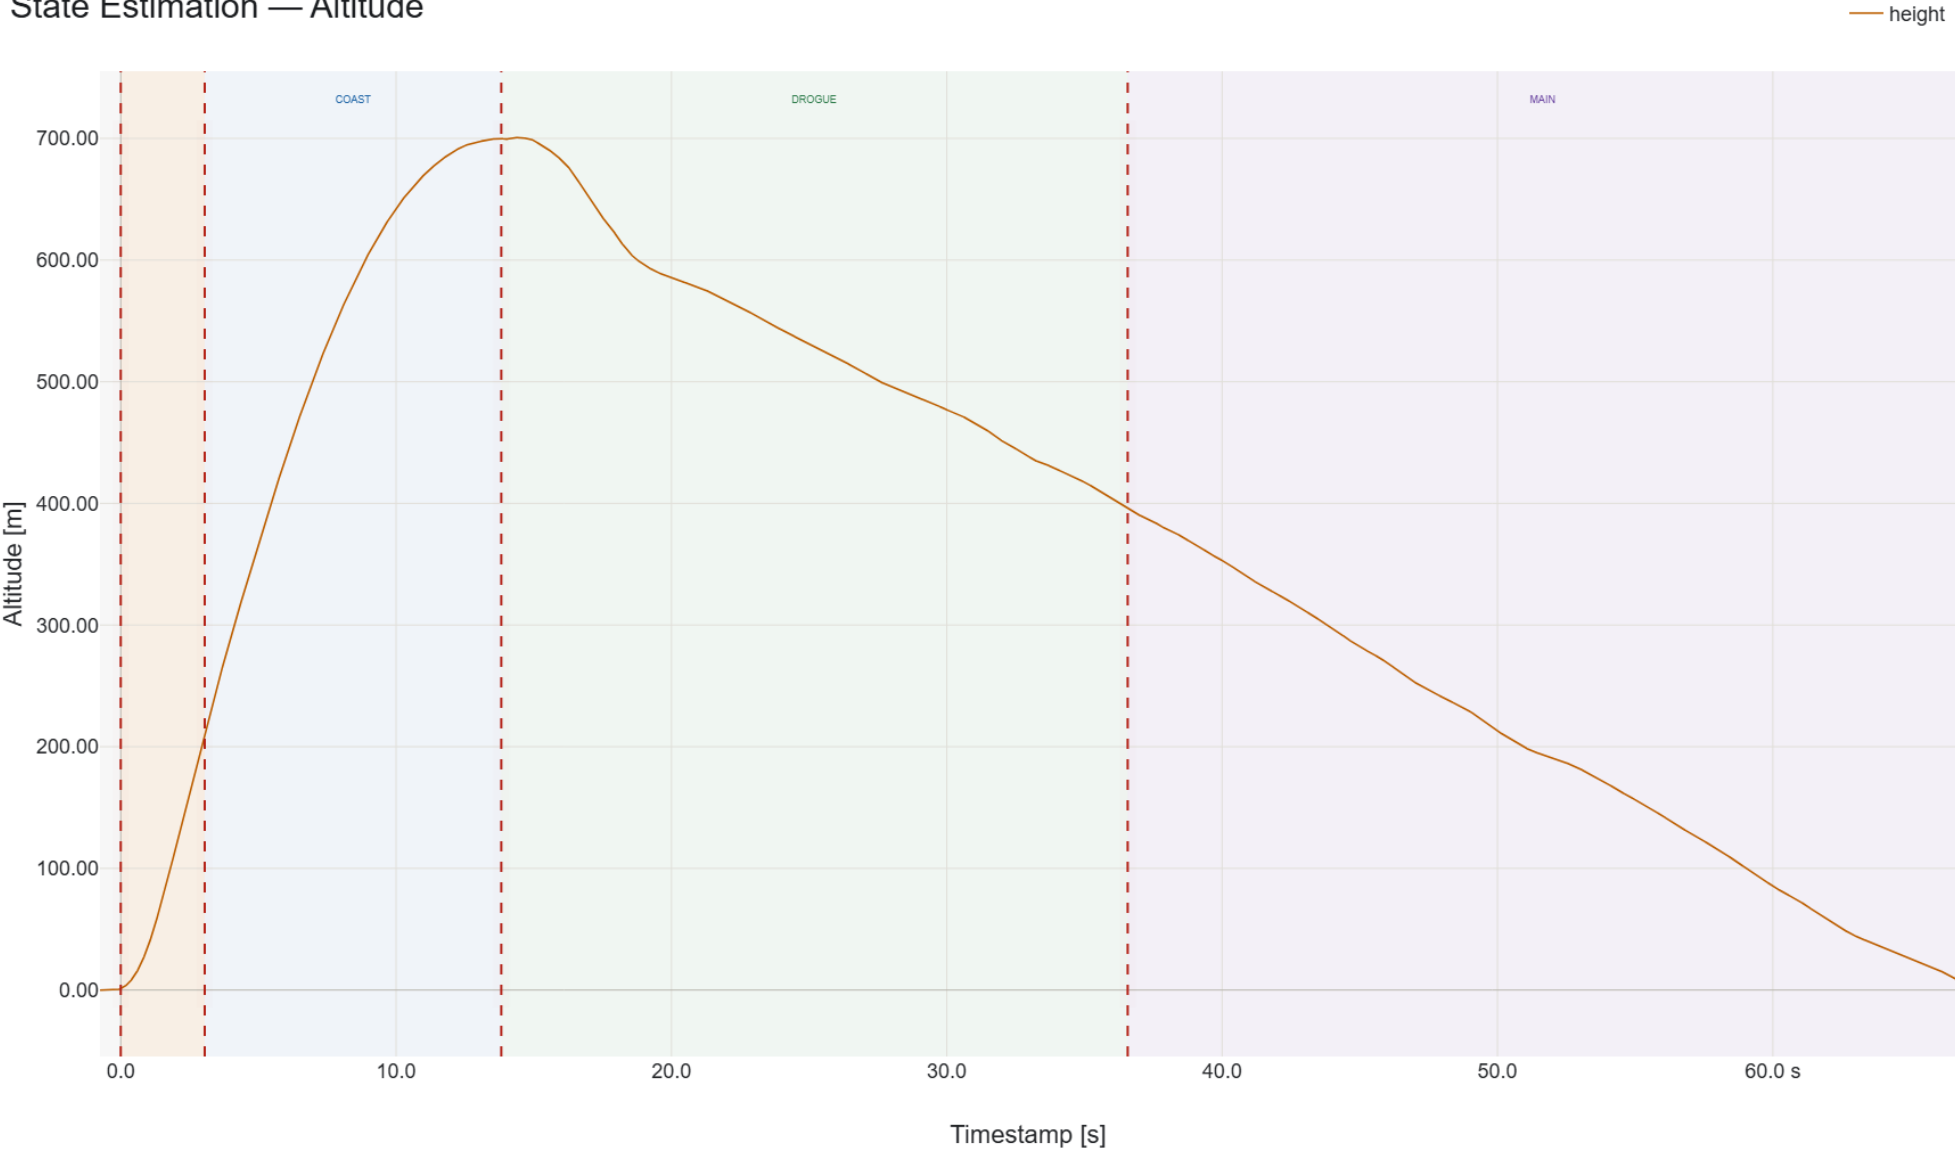

MODELED CONDITIONS

The model estimate was unavailable at export time.

Telemetry remains available in this report.

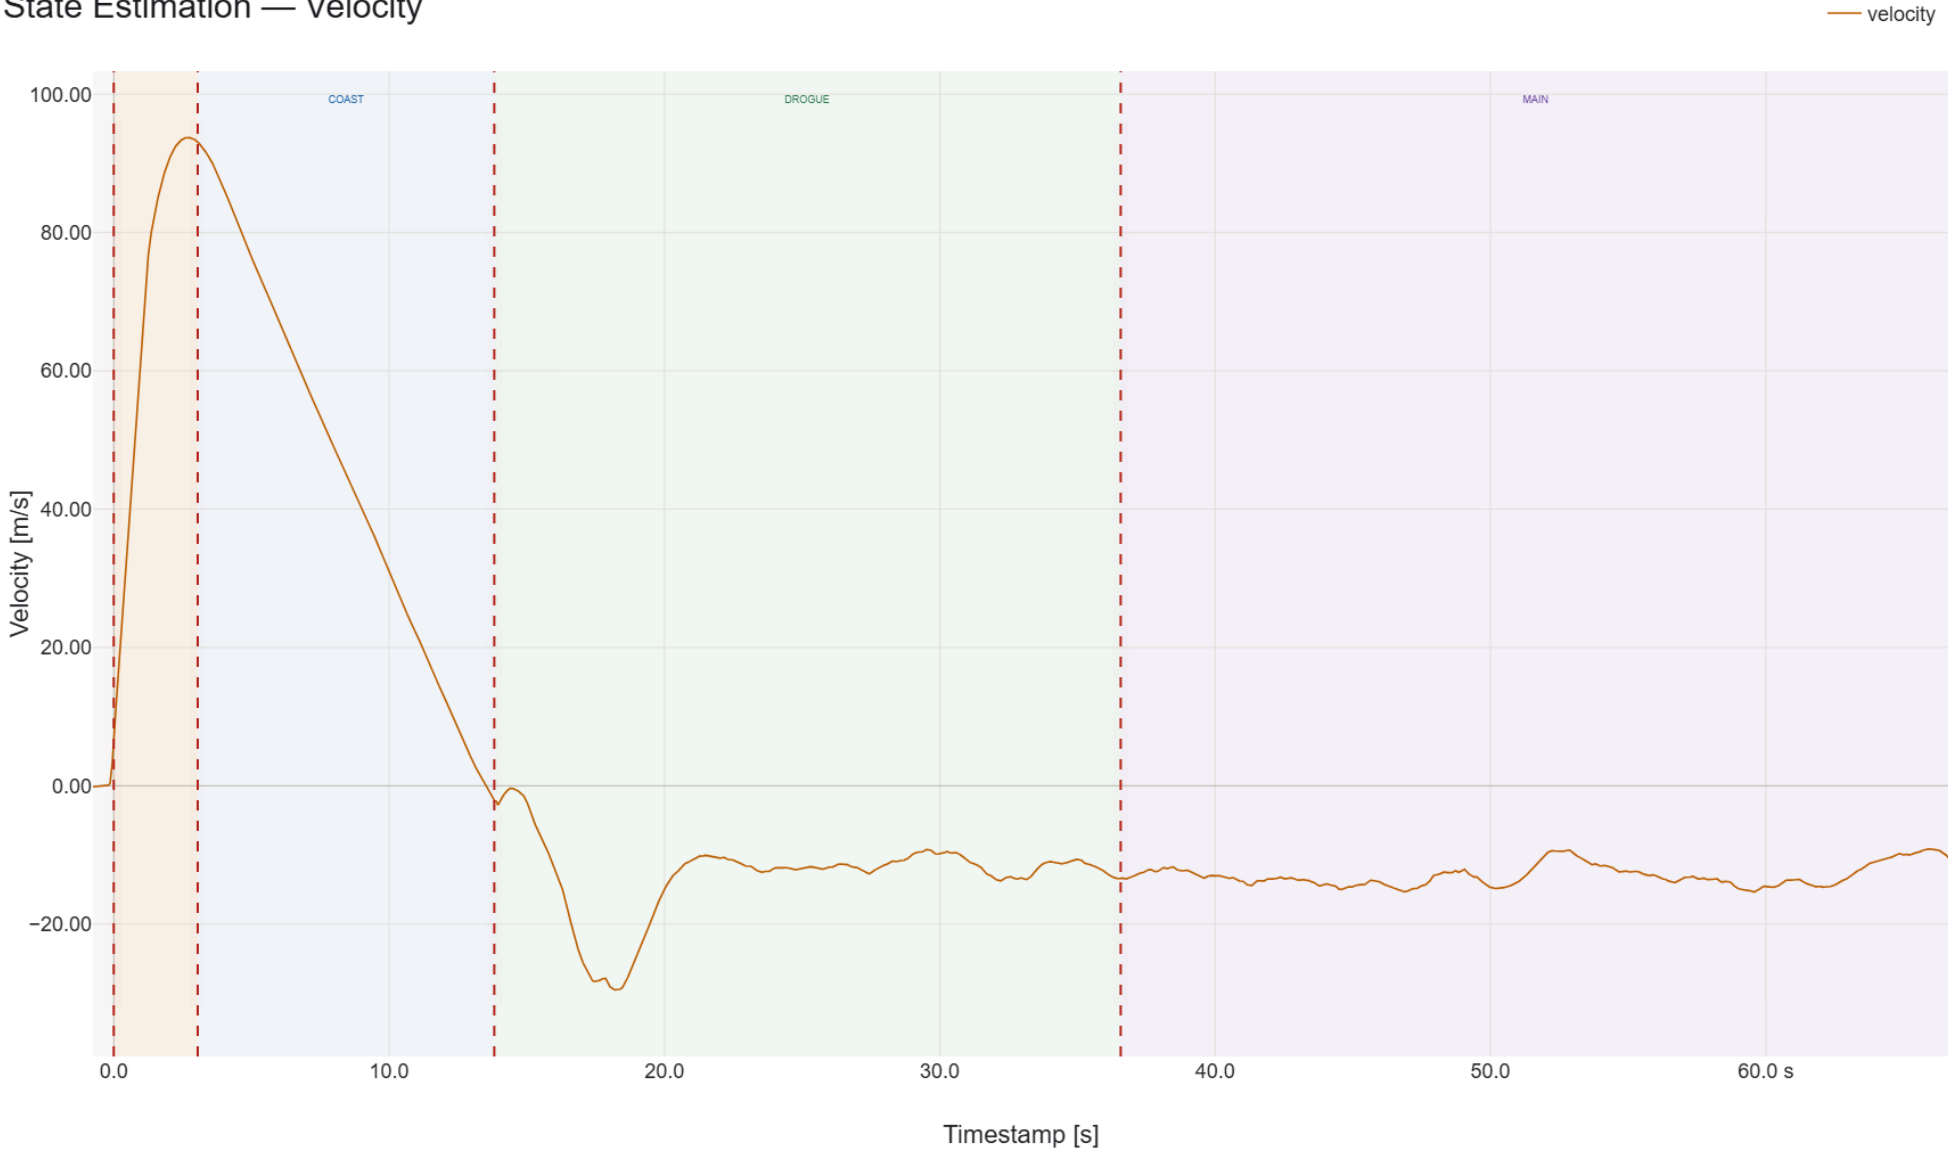

State Estimation — Altitude

Full-flight phase bands · executed-event markers · 6,742 samples · metric units

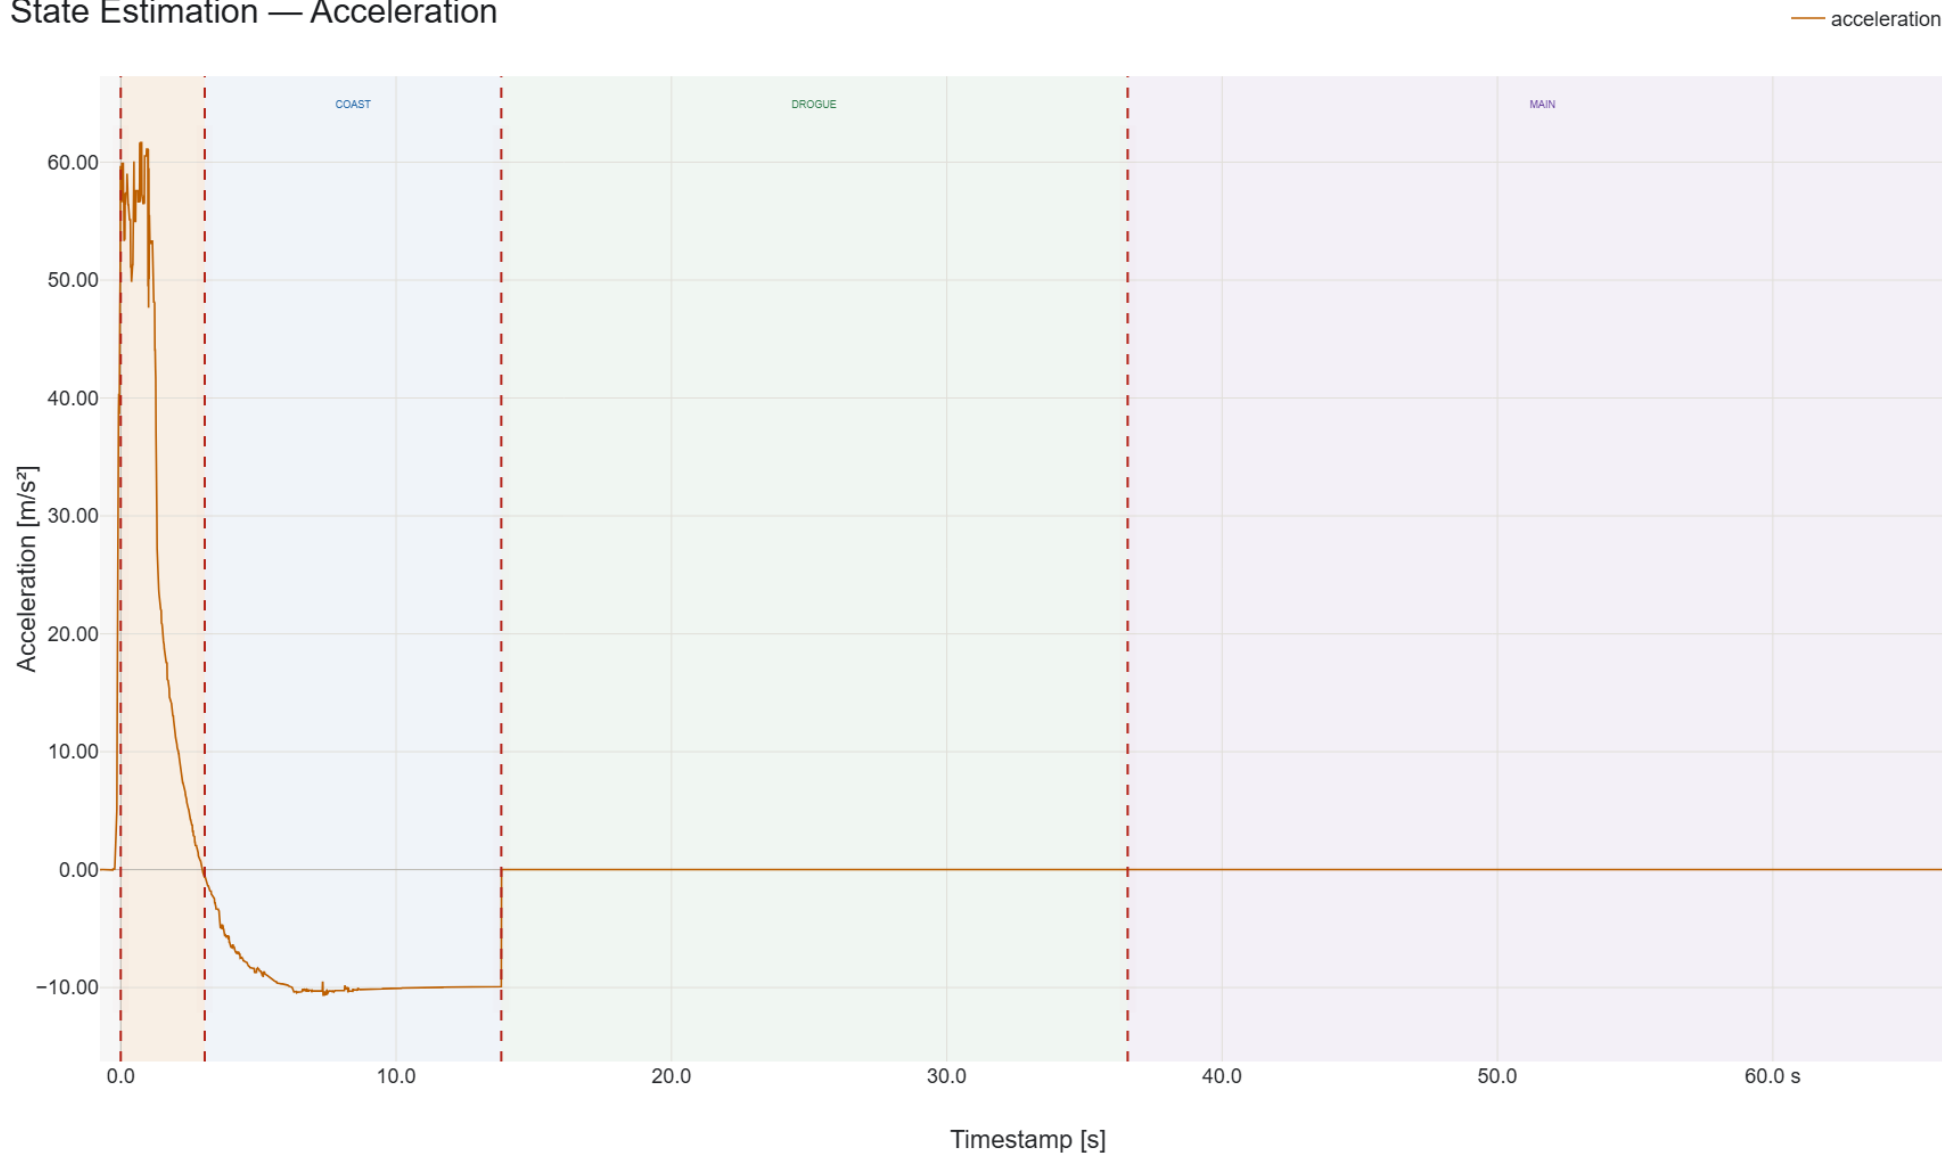

State Estimation — Velocity

Full-flight phase bands · executed-event markers · 6,742 samples · metric units

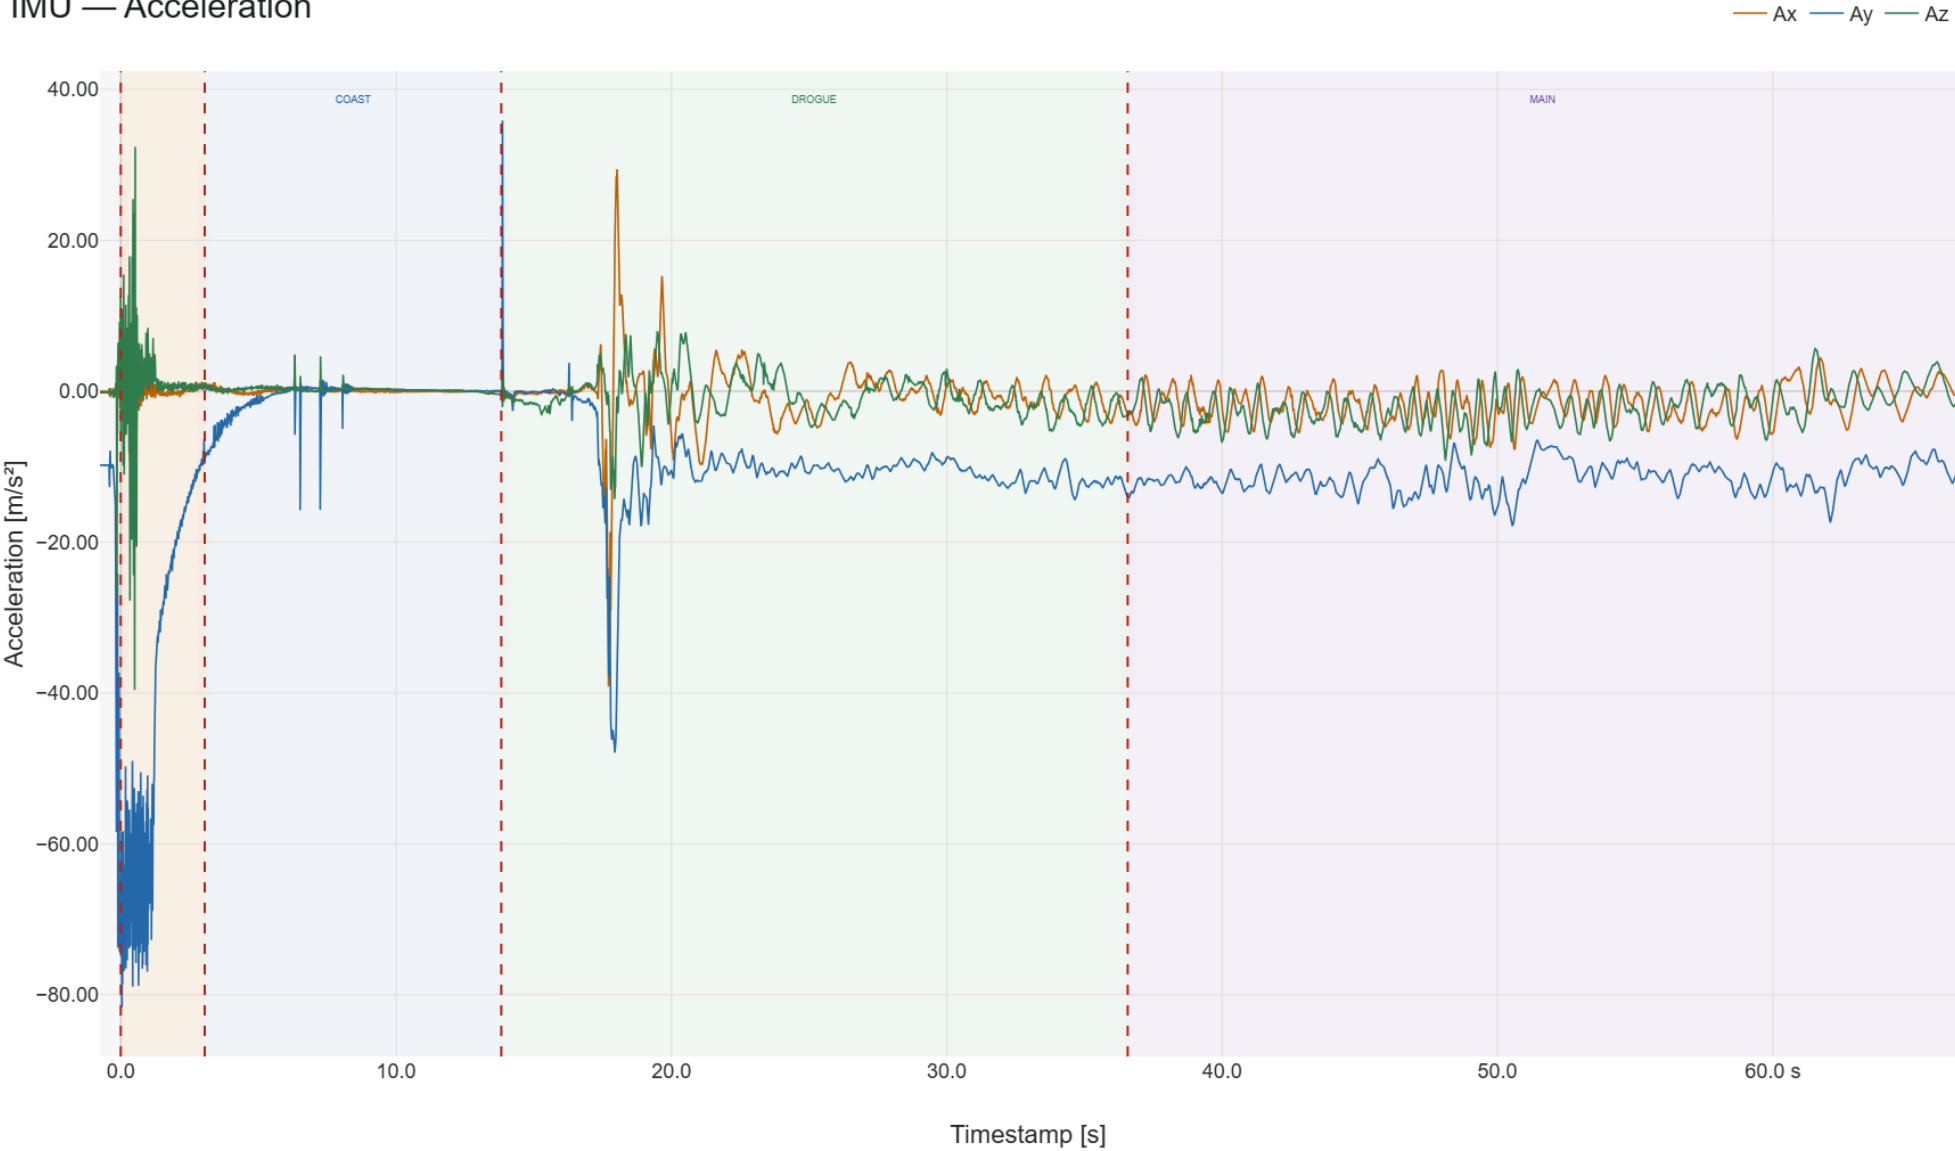

State Estimation — Acceleration

Full-flight phase bands · executed-event markers · 6,742 samples · metric units

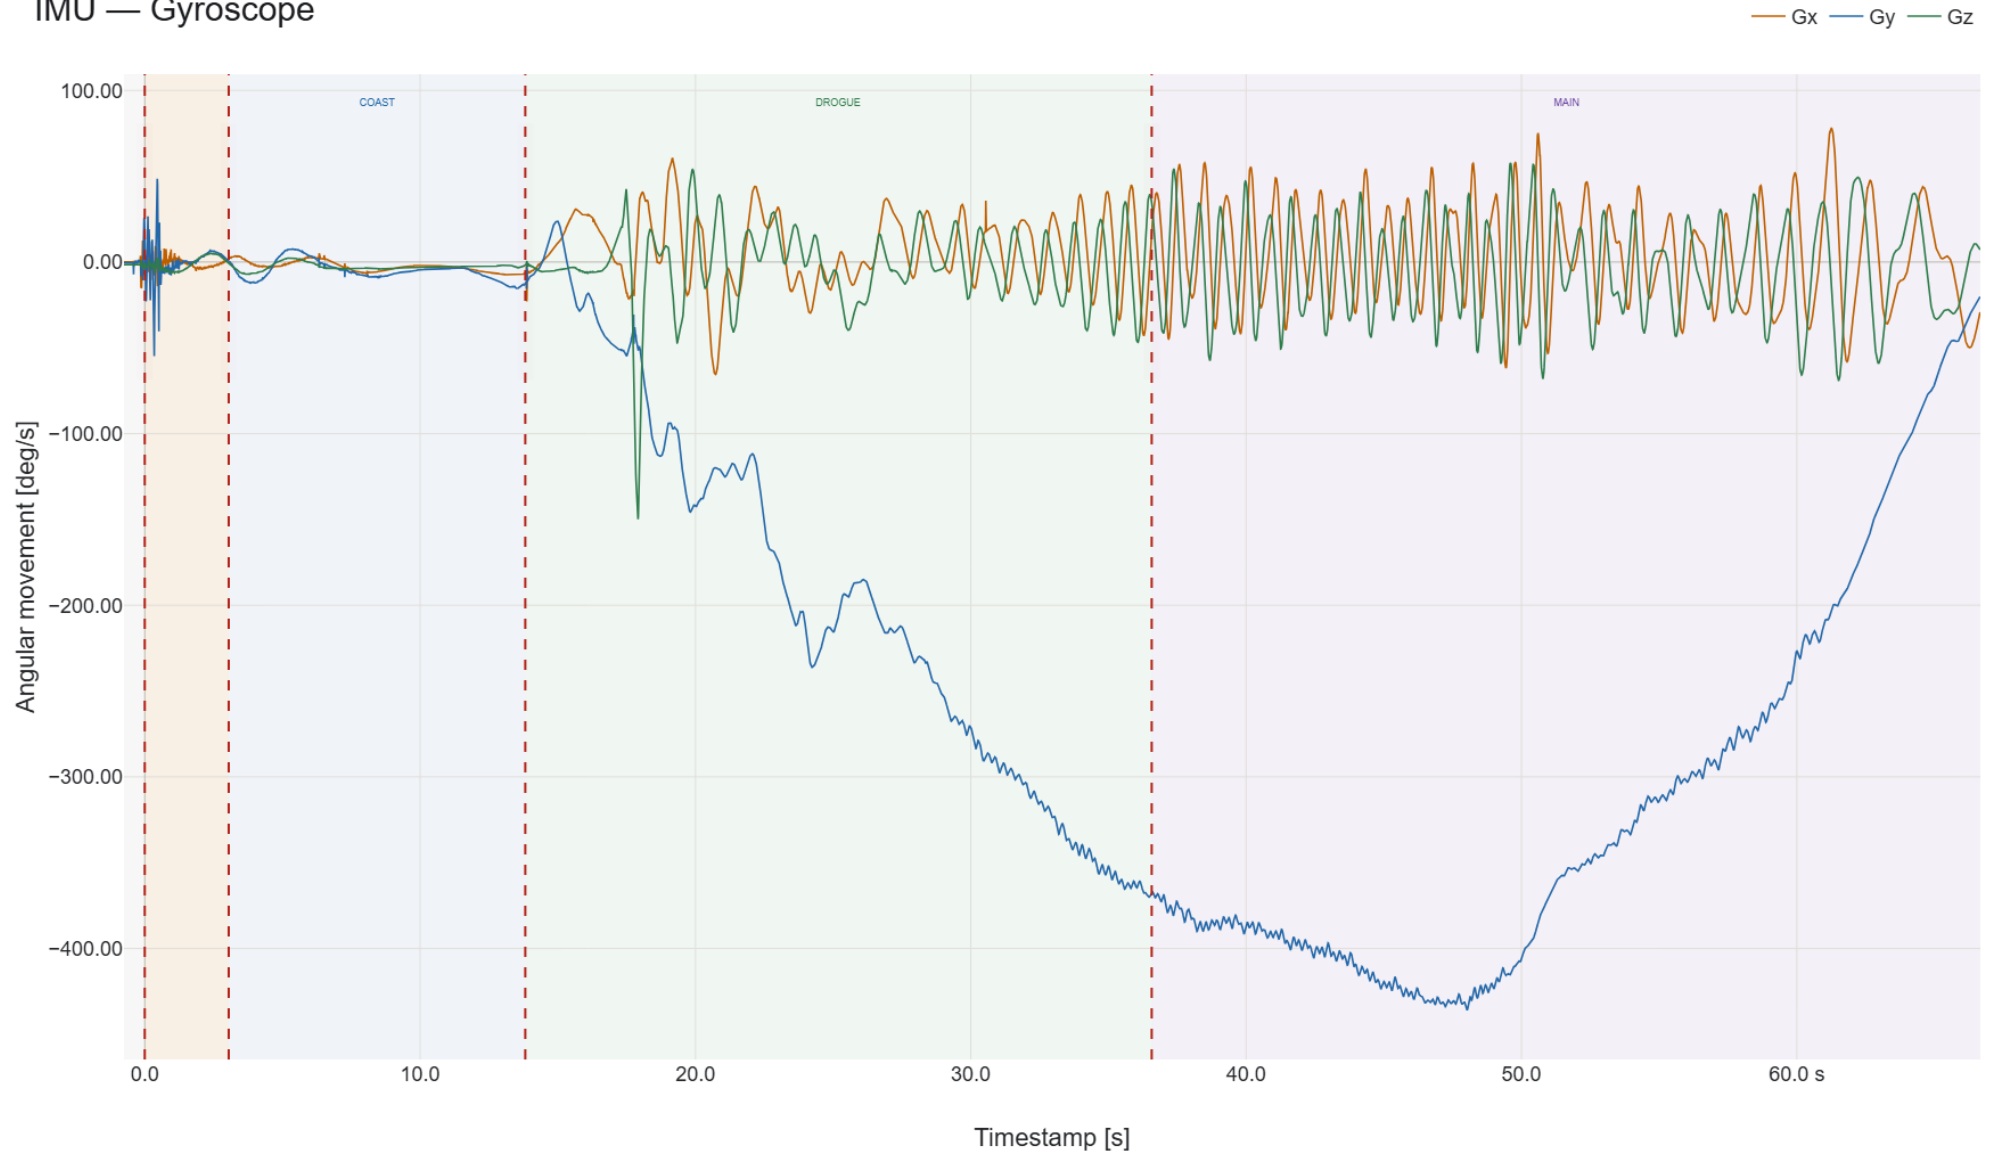

IMU — Acceleration

Full-flight phase bands · executed-event markers · 6,742 samples · metric units

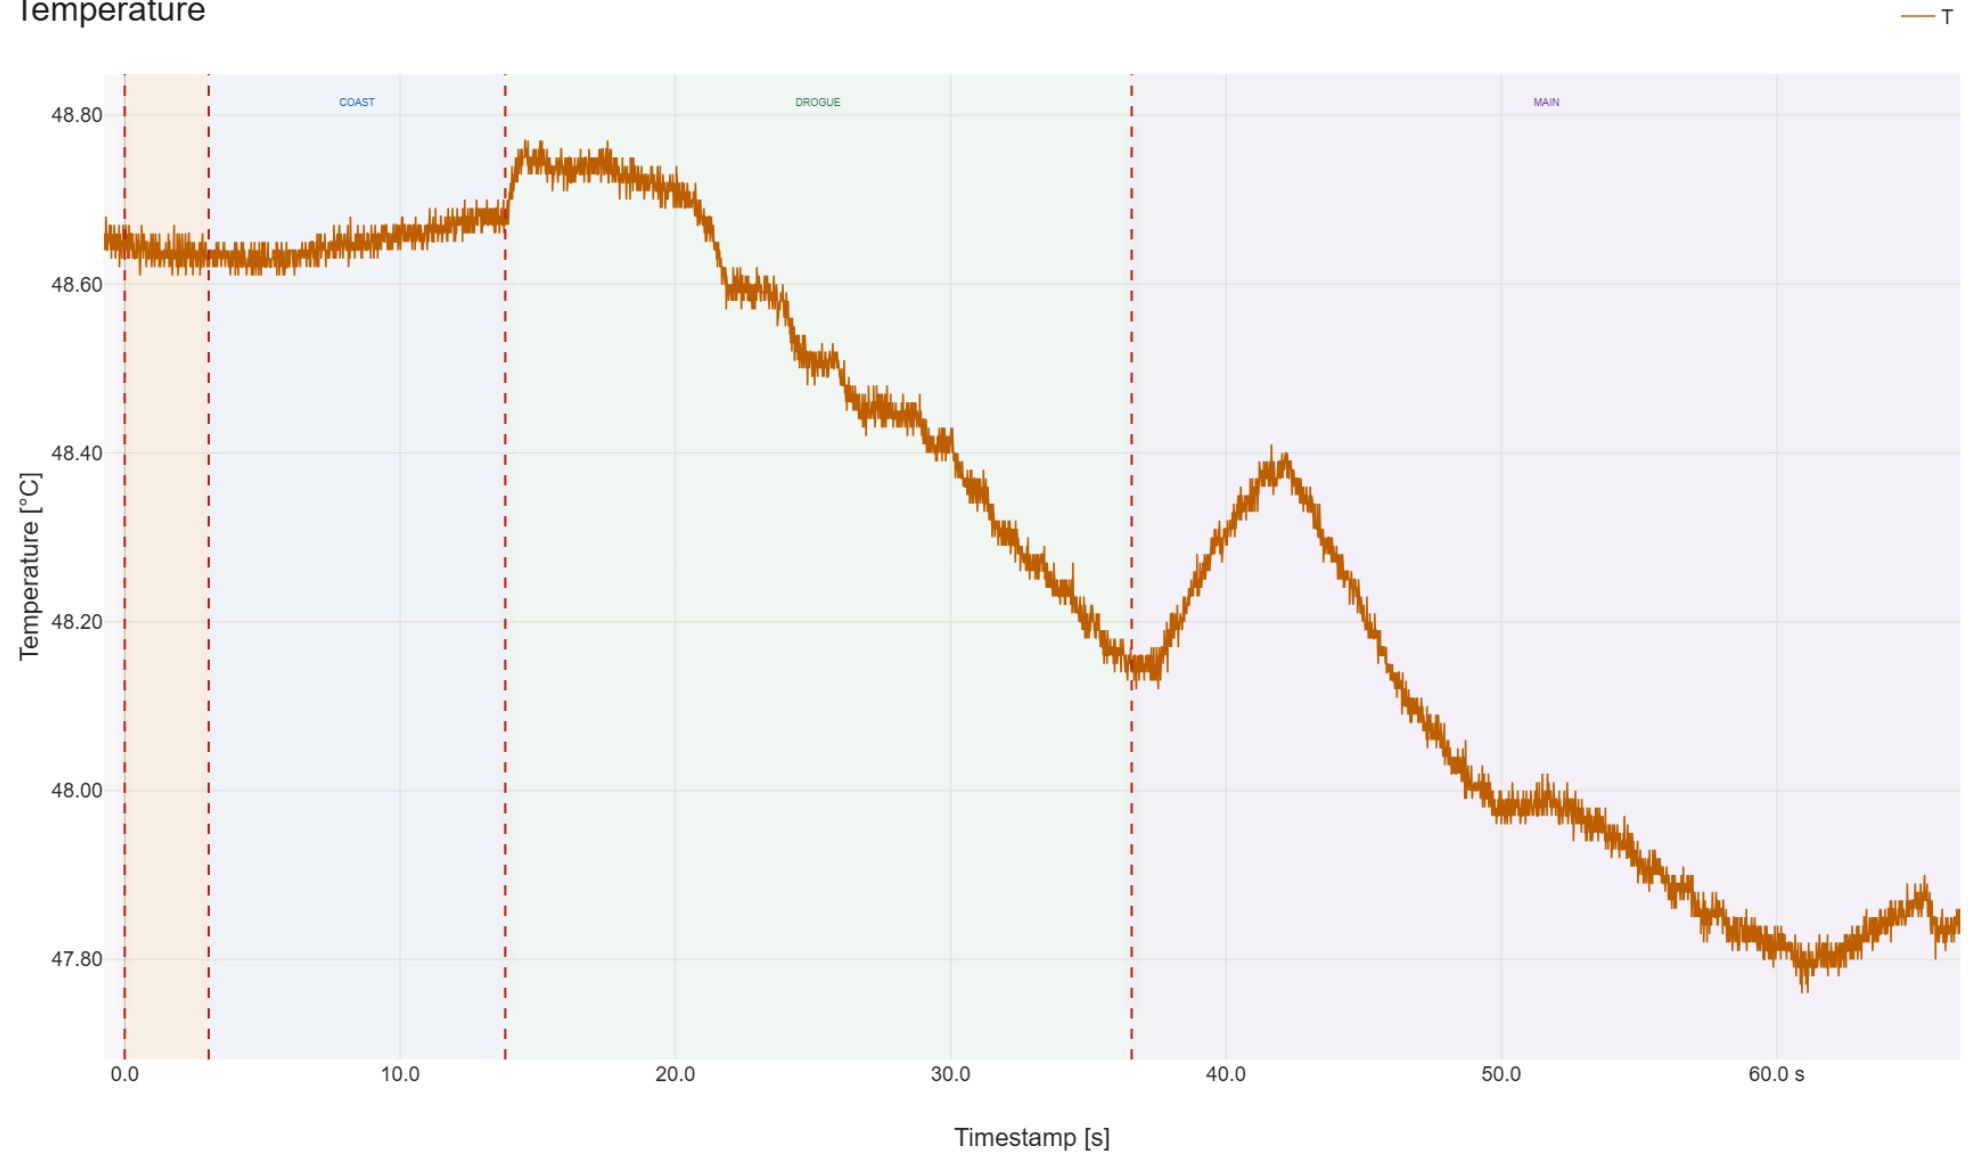

IMU — Gyroscope

Full-flight phase bands · executed-event markers · 6,742 samples · metric units

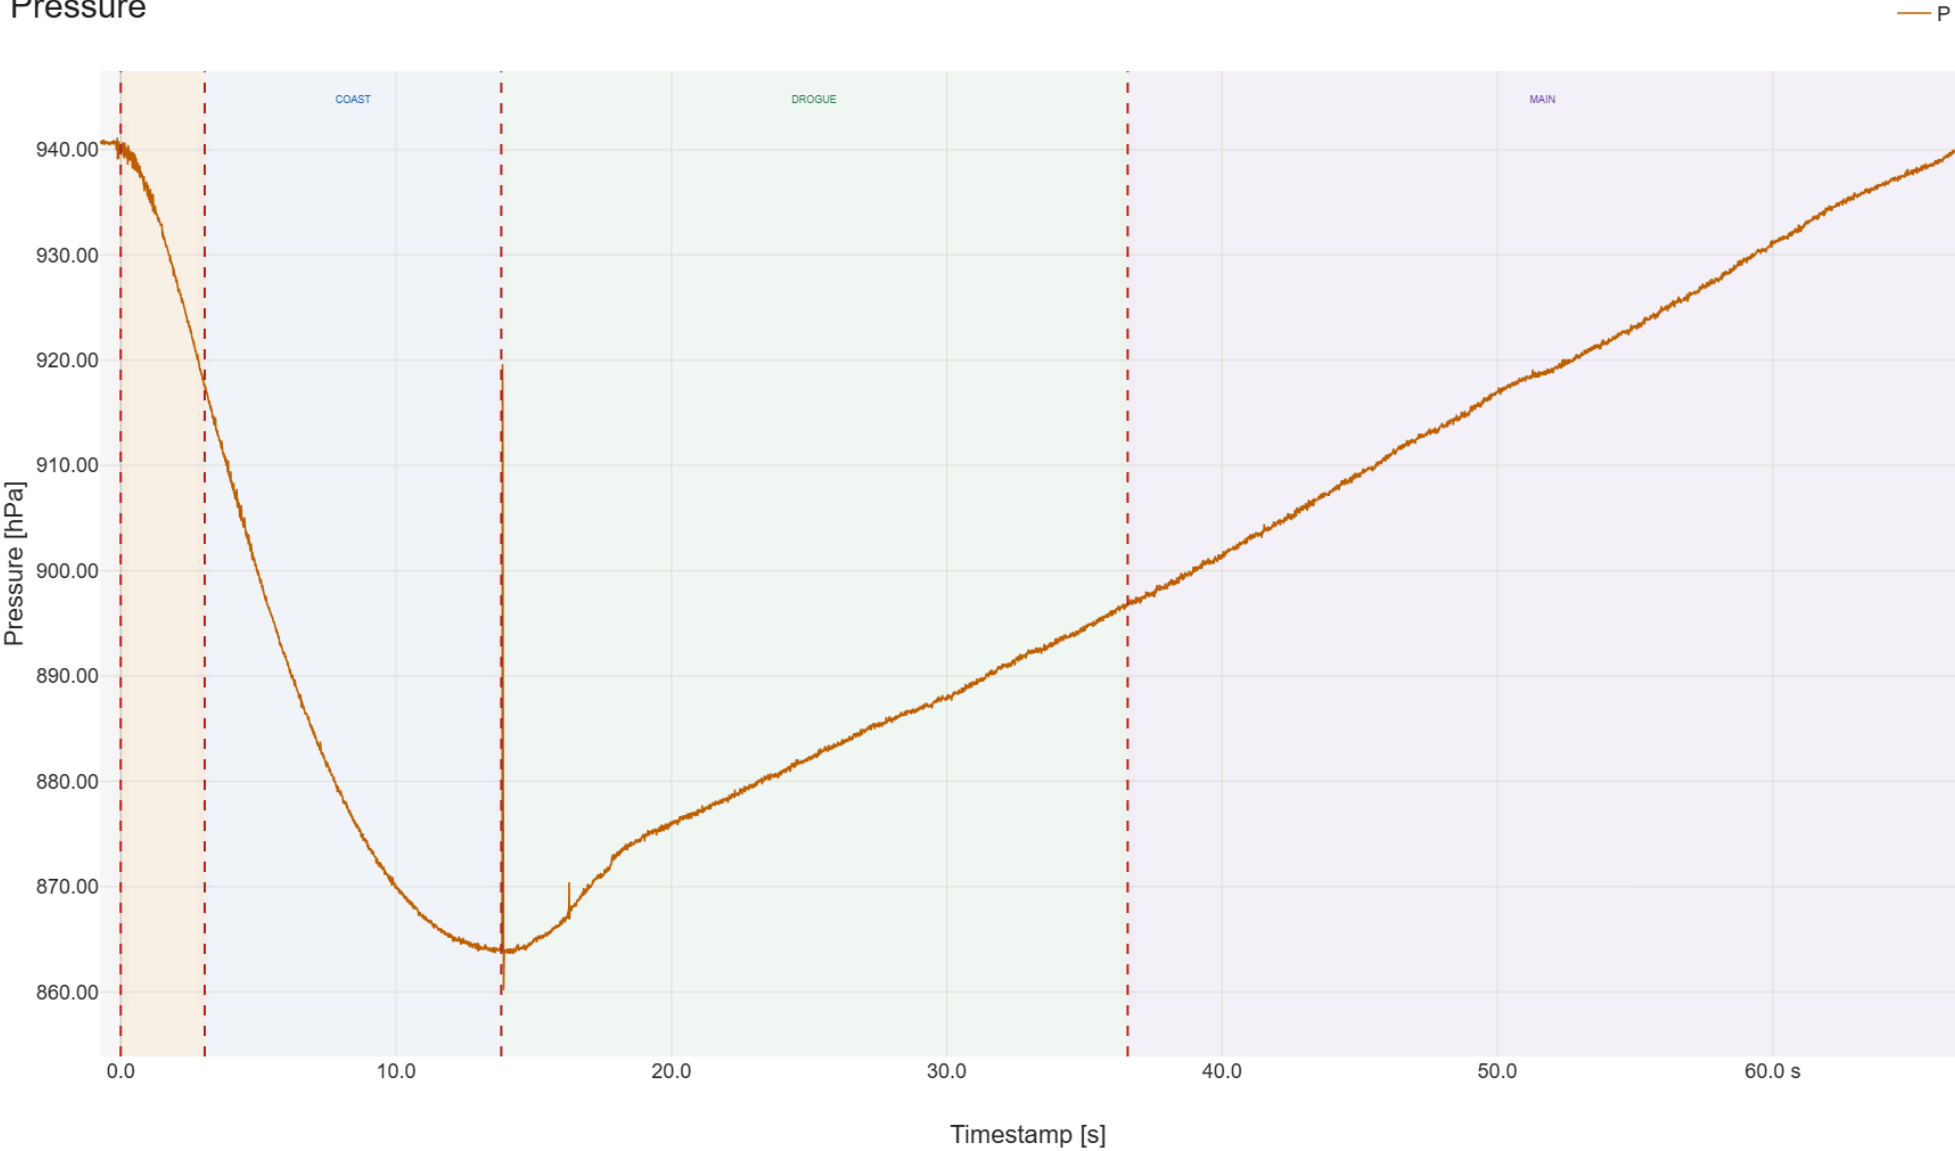

Temperature

Full-flight phase bands · executed-event markers · 6,743 samples · metric units

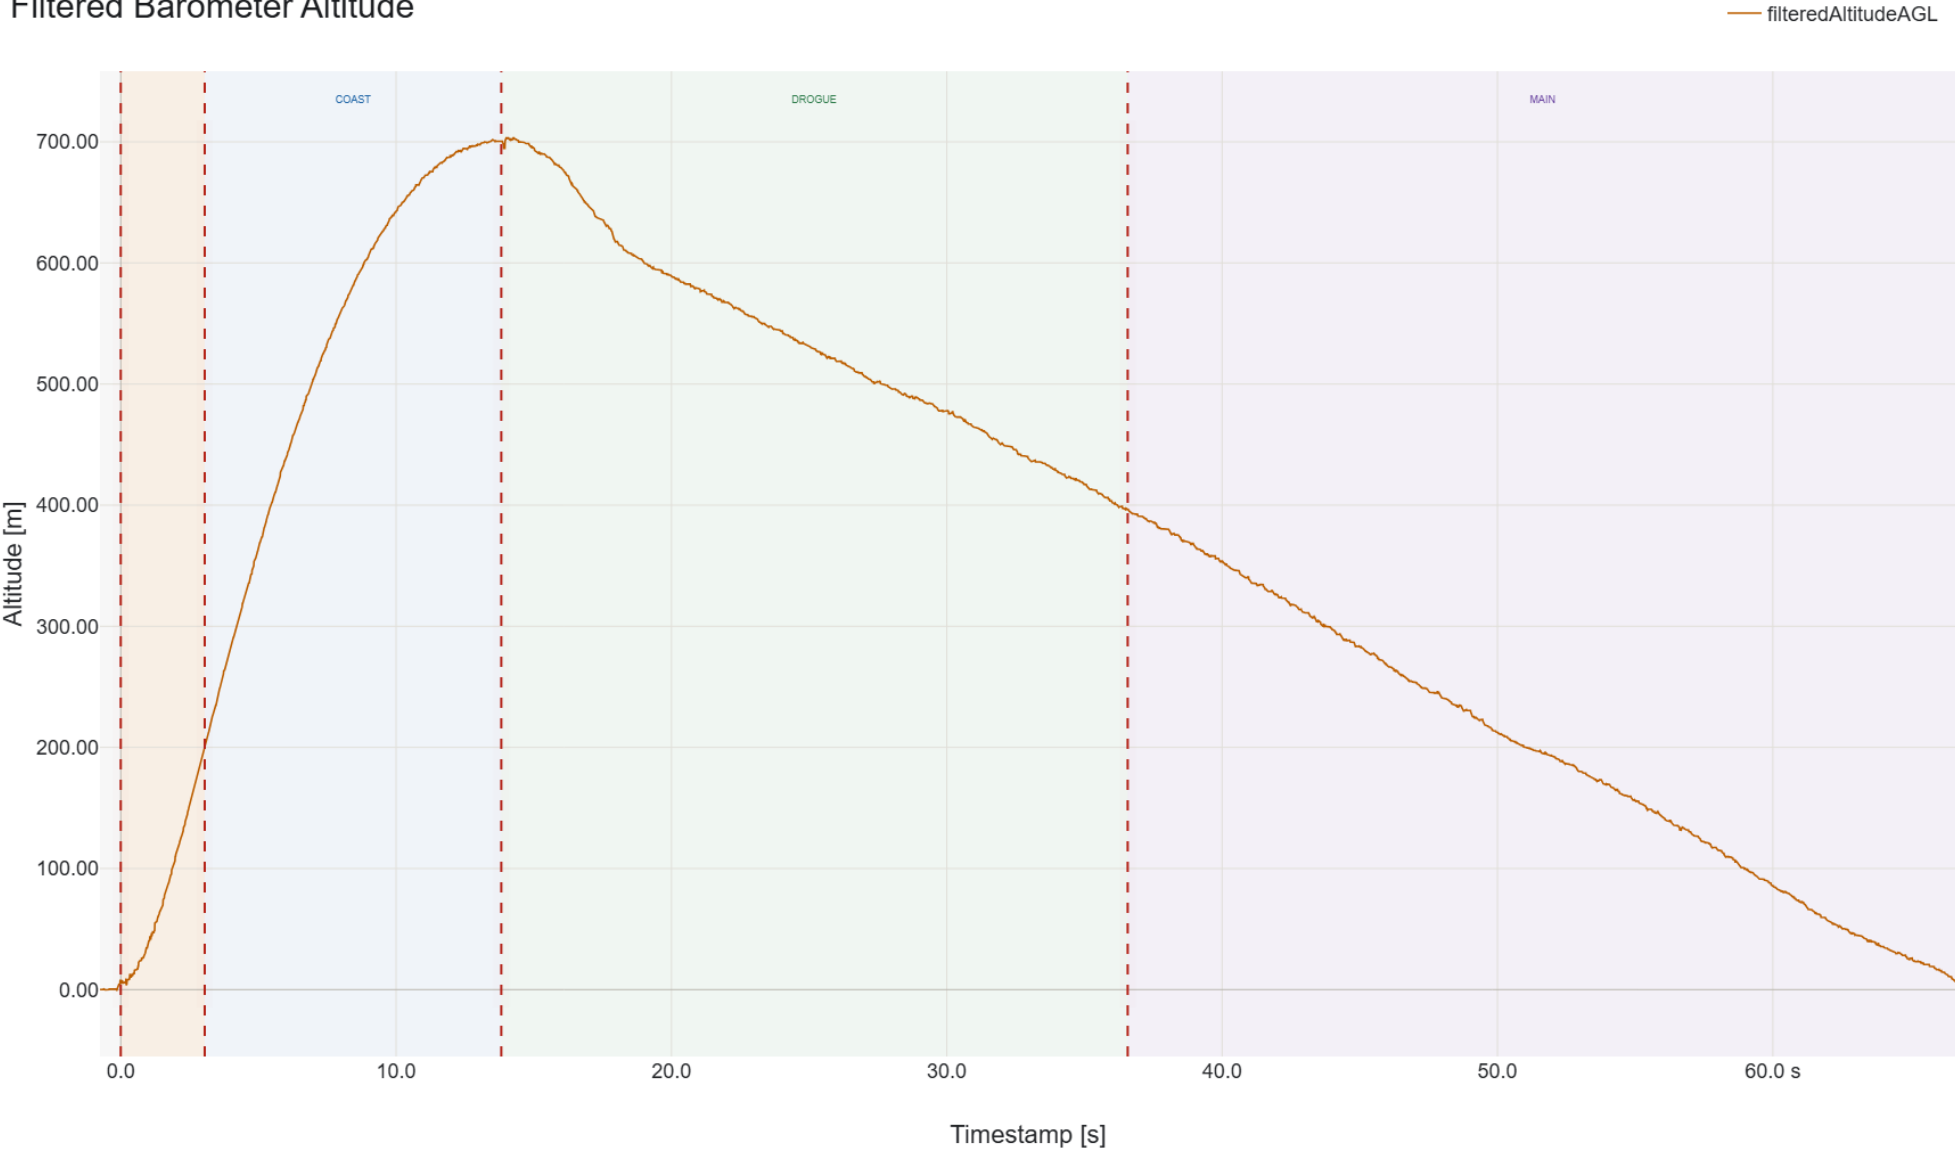

Pressure

Full-flight phase bands · executed-event markers · 6,743 samples · metric units

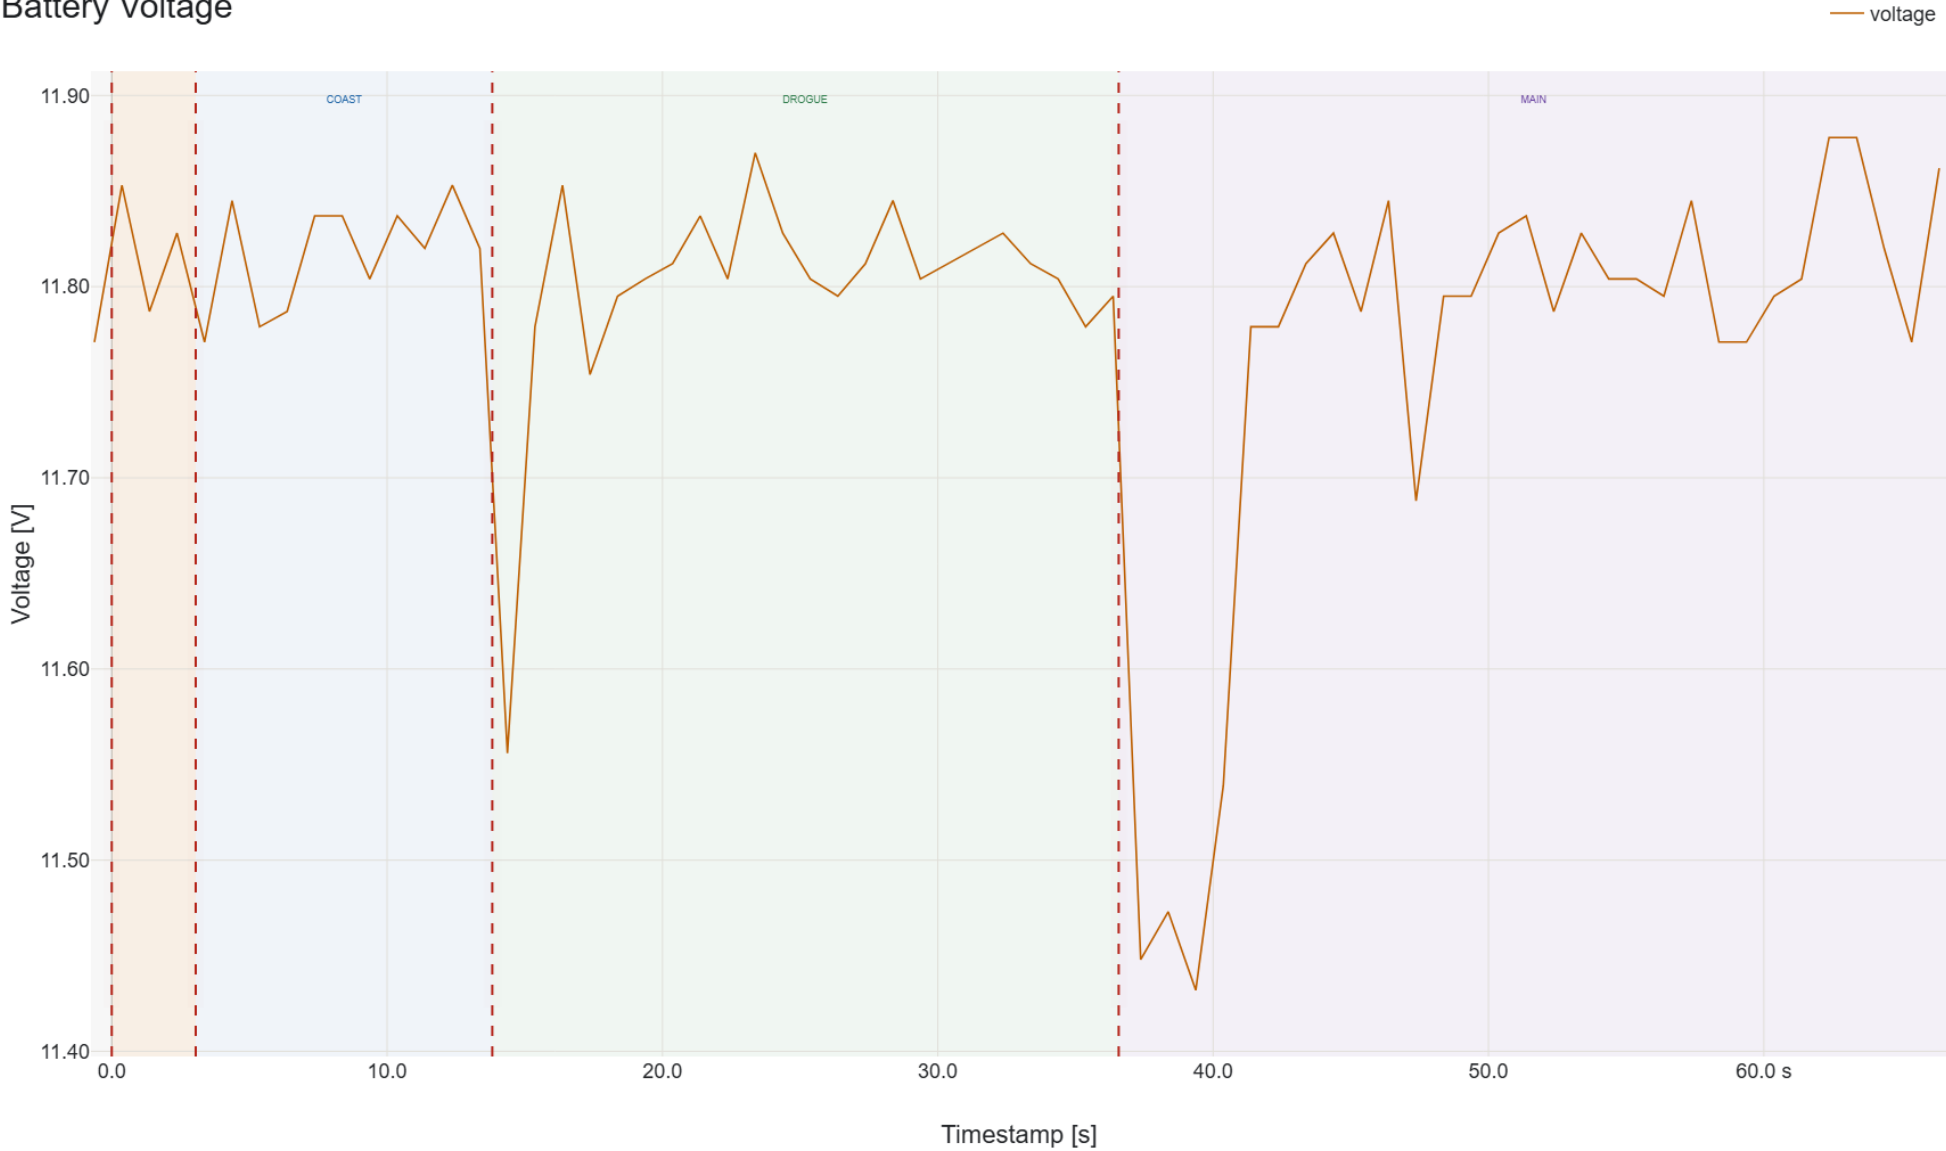

Filtered Barometer Altitude

Full-flight phase bands · executed-event markers · 6,742 samples · metric units

Battery Voltage

Full-flight phase bands · executed-event markers · 68 samples · metric units
